CAPABILITY STATEMENT

Alliant Enterprises LLC (d.b.a Alliant Healthcare Products), founded in 2002, provides high-quality medical products and services to the federal and military healthcare market. As a Service-Disabled, Veteran-Owned, Small Business (SDVOSB), Alliant provides unrivaled value to government customers by offering a myriad of unique resources, including a team of field sales representatives to facilitate complex government procurements. Alliant provides state of the art medical products and services from over twenty high-profile medical manufacturers including Olympus, Philips, TeleFlex, Skytron, Belimed, Linet, and many more. Our breadth of products cover a wide range of medical needs, making Alliant Healthcare a one-stop option for SDVOSB-sourced medical products.

PARTNERS & PRODUCTS

PHILIPS

Ability to deliver value throughout the complete continuum of care by providing patient monitoring and vital signs monitoring solutions, defibrillators, cardiograph systems & more.

Providing innovative technologies for the OR, Hybrid Room, ER, and ICU by providing Surgical Tables, Lights, Booms, and much more.

LINET manufacturers innovative beds, surfaces and patient room furniture for the ICU, Med/Surg, Labor & Delivery and Neonatal environments that promote patient and nurse safety and facilitate early mobilization.

AmnioX is the only Cryopreserved Umbilical Cord based Membrane Graft available today. Available in various sizes to meet multiple clinical needs.

Surgical robotics company developing transformative solutions in urology. The AquaBeam® System delivering Aquablation therapy is the world's first minimally invasive surgical robot providing autonomous tissue removal to safely and effectively treat benign prostatic hyperplasia (BPH).

Urgo Medical North America provides products with a focus on acute, chronic, and surgical wounds, and additionally skin moisturization. Our portfolio of products establishes proven protocols for the care and management of wounds, skin, and skin breakdown.

Belimed is a well-respected sterile processing equipment and solutions provider, offering world-class CSSD layout and workflow designs incorporating innovative technology, clinical expertise, and the new Protect® Cleaning Solutions.

Developing innovative products and quality solutions for the Foot & Ankle surgeon.

Alphatec Spine, Inc., (ATEC) is a medical device company that designs, develops and markets Spine Approach Technologies. ATEC's mission is to revolutionize the approach to spine surgery and deliver improved patient care.

OLYMPUS®

Offering innovative technologies (ENT, Endoscopy, Urology, etc.) aimed at providing advanced, minimally invasive and diagnostic improvements to the quality of patient care. Olympus is also a worldwide renowned manufacturer of microscopes and offers a complete range of microscopes and accessories.

Vascular access products with antimicrobial and antithrombogenic protection designed to reduce vascular-related complications with peripherally inserted central catheters (PICC) and an advanced vascular positioning system to facilitate precise placement of a PICC near the heart.

Arjo is a global supplier of medical devices, services, and solutions that improve quality of life for people with reduced mobility and age-related health challenges.

Global technology leader in robotic-assisted percutaneous coronary interventions (PCIs). The CorPath system is the first medical device that offers interventional cardiologists PCI procedure control from a radiation protective interventional cockpit.

Bio-Tissue® is the leader in regenerative biologic therapies and ocular hygiene solutions for eye care professionals.

The new standard waste fluid management offering a revolutionary direct-to-drain system that streamlines the collection and disposal of potentially infectious waste fluid.

Logiquip's sole focus is hospital storage and distribution systems, ideal for VA and DoD facilities.

Altus builds durable, ergonomic, and stylish technology workstation solutions. These workstations work in a variety of environments, from a classroom to an emergency room.

Aspen Surgical is a leading worldwide manufacturer of surgical disposable products with an emphasis on safety. Our portfolio includes Bard-Parker® Blades and Scalpels, O.R. Accessories, Patient and Staff Safety, Wound Care, and Instrument Care Products.
