OLYMPUS®

Offering innovative technologies (ENT, Endoscopy, Urology, etc.) aimed at providing advanced, minimally invasive and diagnostic improvements to the quality of patient care. Olympus is also a worldwide renowned manufacturer of microscopes, offering a complete range of microscopes and accessories.

Belimed

Infection Control

Belimed is a well-respected sterile processing equipment and solutions provider, offering world-class CSSD layout and workflow designs incorporating innovative technology, clinical expertise, and the new Protect® Cleaning Solutions.

LOGIQUIP

Logiquip's sole focus is hospital storage and distribution systems, ideal for VA and DoD facilities.

ARJO

EMPOWERING MOVEMENT

Arjo is a global supplier of medical devices, services, and solutions that improve quality of life for people with reduced mobility and age-related health challenges.

PROCEPT®

BIOROBOTICS

Surgical robotics company developing transformative solutions in urology. The AquaBeam® System delivering Aquablation therapy is the world's first minimally invasive surgical robot providing autonomous tissue removal to safely and effectively treat benign prostatic hyperplasia (BPH).

Guerbet |

Guerbet is a pioneer in the contrast-agent field and a leader in medical imaging. Their Digital Urological Imaging System provides best-in-class image quality and improved efficiency delivering unmatched performance.

PHILIPS

Ability to deliver value throughout the complete continuum of care by providing patient monitoring cardiograph systems, and more.

LINET

Designed to help you care

LINET manufactures innovative beds, surfaces, and patient room furniture for the ICU, Med/Surg, Labor & Delivery and Neonatal environments that promote patient and nurse safety and facilitate early mobilization.

ARROW

from TELEFLEX

Vascular access products with antimicrobial and anti-thrombogenic protection designed to reduce vascular-related complications with peripherally inserted central catheters (PICC) and an advanced vascular positioning system to facilitate precise placement of a PICC near the heart.

Paragon²⁰

Exclusively foot & ankle

Developing innovative products and quality solutions for the foot and ankle surgeon.

ALTUS

Altus builds durable, ergonomic, and stylish technology workstation solutions in a variety of environments, from classrooms to emergency rooms.

OXOS

OXOS is expanding access to healthcare by developing ultra-portable x-ray devices for use in clinical, surgical, and remote care scenarios.

atec™

INFORMED BY EOS

Alphatec Spine, Inc., (ATEC) is a medical device company that designs, develops, and markets Spine Approach Technologies. ATEC's mission is to revolutionize the approach to spine surgery and deliver improved patient care.

SKYTRON®

Providing innovative technologies for the OR, Hybrid Room, ER, and ICU by providing Surgical Tables, Lights, Booms, and much more.

aspensurgical.

Leading manufacturer of disposable surgical products. Extensive portfolio of specialty medical products and surgical instruments includes Bard-Parker® Blades and Scalpels, OR accessories, patient and staff safety products, and instrument care products.

URGO

MEDICAL
Healing people®

Urigo Medical North America provides products with a focus on acute, chronic, and surgical wounds, and additionally skin moisturization. Our portfolio of products establishes proven protocols for the care and management of wounds, skin, and skin breakdown.

BioTissue®

Biotechnology company featuring products to treat ocular surface disease & disorders as well as products to support regenerative healing and functional recovery in surgical, chronic wound, and musculoskeletal applications.
